

SPEAKER BARRETT: LB 639A is advanced. LB 300, Mr. Clerk.

CLERK: Mr. President, if I might right before we proceed to 300, Banking Committee gives notice of hearing; Transportation, notice of hearing; Appropriations, notice of hearings. Signed by the respective Chairs.

Health and Human Services reports 250 to General File with amendments and 699 indefinitely postponed. Signed by Senator Wesely.

Mr. President, LB 300 was a bill that was introduced by Senator Richard Peterson. (Read title.) The bill was introduced on January 15 of this year, referred to the Transportation Committee for hearing, advanced to General File. I have no amendments to the bill, Mr. President.

SPEAKER BARRETT: Senator Peterson.

SENATOR PETERSON: Mr. Speaker and members, this bill, LB 300, I hope is not construed to be Initiative 300. I want that made perfectly clear to start with. This was brought to me by James Murphy, State Director of Selective Services. If you are looking in your bill book, in the committee statement it says State Director for Social Services. So you might want to strike "Social Services" and put "Selective Services". This bill will allow the Nebraska Department of Motor Vehicles to provide information to United States Selective Service System regarding information as contained in its files. The purpose in allowing this is to afford the Selective Service System an opportunity to notify Nebraska residents of their noncompliance with federal law. The information is to be used only by the Selective Service System and to be put to no other use. And when they get done with this, they will forward it back if we want it back to the state. If there is any concern in the handouts I had, there was some concern we had heard with the Federal Privacy Act. The letter from the Selective Service System national headquarters in Washington, D.C. puts that, I think, item to rest. The purpose in providing the information is to identify and locate those who have not complied with their requirement to register with the Selective Service System. The information is necessary now because for the first time since the registration requirement was reimposed, some Nebraskans who should have registered are getting too old to register. Anyone who has turned 27 since January 1, 1987 and who is not registered, who will be precluded from registering for the rest of their life,
